A Workman is Known by His Tools

Introduction

BY supplying guaranteed tools our line has won its way into general recognition as the standard in the trade.

We again call your attention to the fact that we warrant all our cutlery as being made of the finest tempered steel, and will cheerfully replace any article that may prove defective through any fault of the manufacturer or not up to standard.

All our brushes and other articles are made of the best materials obtainable for the price they are sold.

By comparing prices you will find we save you money on nearly every article, besides always furnishing the "best" the market affords. Prices quoted will not be changed during the year. Each article carried in stock continually.

American Wall Paper Co.

CUT THIS OUT. The discount on all articles in this catalogue is 50%. Before showing to your customers be sure and remove this slip.

Walcrusta.

German Relief Decoration.

WALCRUSTA has been imported by us, having been found to be the newest in style and design and best in quality of all the relief decorations on the market. All patterns shown are our exclusive designs and cannot be duplicated elsewhere.

WALCRUSTA is practically indestructible. Exposure, water or wear does not affect it. Keeps out the cold or dampness. Does not discolor or crack. Keeps the wall in perfect condition and stands all kinds of rough usage.

For dining-rooms, vestibules, stairways, stores, public buildings, churches or society halls it has no equal. The natural or raw goods can be decorated to match any furnishings. The colored patterns require no decorating. Hang like wall paper and the job is done. All colored designs are **colored in the pulp.** The color may be changed from time to time by a coat of paint. Once on the wall it lasts a lifetime.

Samples Mailed Upon Request.

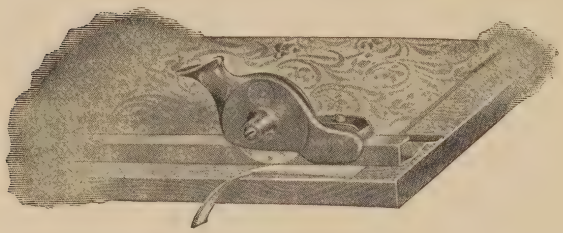
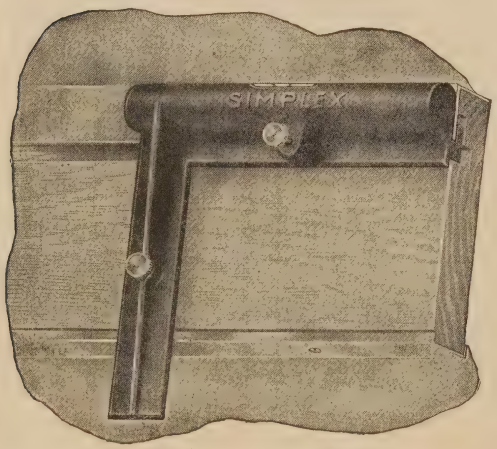
7-ft., Zinc only,
Price, each. . . . . **.50**

SIMPLEX TRIMMER WITH STEEL STRAIGHT EDGE.



6-ft. outfit complete,
Price, each **$8.50**
7-ft. outfit complete,
Price, each. **9.00**
7-ft. Steel St. Edge
only. Price, each. **6.00**

PLUMB AND LEVEL.



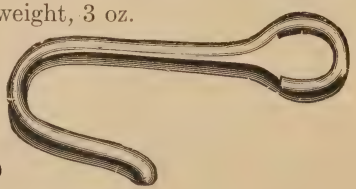
The Simplex Trimmer will cut much thicker paper with greater ease than any other. Makes a straight, clean cut for butting. Every part is made from hardened steel. The trimmer will not drop, slide or shake off the straight edge. The steel straight edge cannot warp or bend. Without doubt the best trimmer outfit on the market.

SIMPLEX COMBINED PLUMB AND LEVEL.

Price, each. **$1.50**

Like the Simplex Trimmer, will not drop or slide off straight edge. Made entirely of bronze, and will not break if accidentally dropped. Can be used anywhere. Size, 3x3¼ inches; weight, 3 oz.

No. 99. The Duplex Pot Hook is made of bright steel wire. Cannot unhook from the pail and fall into the color; easily moved on the rungs of ladder. Each, **$0.10**



HOW TO PREPARE A WALL.

A new wall must be sized before papering; a calcimined wall should be washed and sized. If calcimine is very thick it can be easily removed with a wall scraper. All cracks and holes in the plaster should be filled with plaster paris.

TO MAKE SIZE.

Size is made by soaking a pound of glue twelve hours in cold water and adding twelve quarts of hot water and a tablespoonful of powdered alum.

TO MAKE A BUCKET OF PASTE.

To make a bucket of paste use a cheap grade of rye or wheat flour, mix thoroughly with cold water to about the consistency of dough, or a little thinner, being careful to remove all lumps; stir in a tablespoonful of powdered alum to a quart of flour, then pour in boiling water, stirring rapidly until the flour is thoroughly cooked. Let this cool before using, and thin with cold water. Use no alum when hanging ingrains.

WIRE FOR HANGING PICTURES.

21 Yards to Box.

No. 0.	Silvered	Price per box,	**$0.06**
No. 1.	"	" " "	**.08**
No. 2.	"	" " "	**.12**

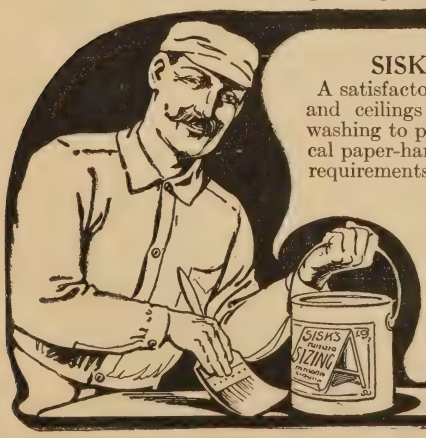
Made of a combination of woods least liable to warp.

BRASS BOUND STRAIGHT EDGE.

7 feet.....Price, each, **$4.00**

Seven pieces, made of finest selected stock, well seasoned and guaranteed to be the truest straight edge on the market.



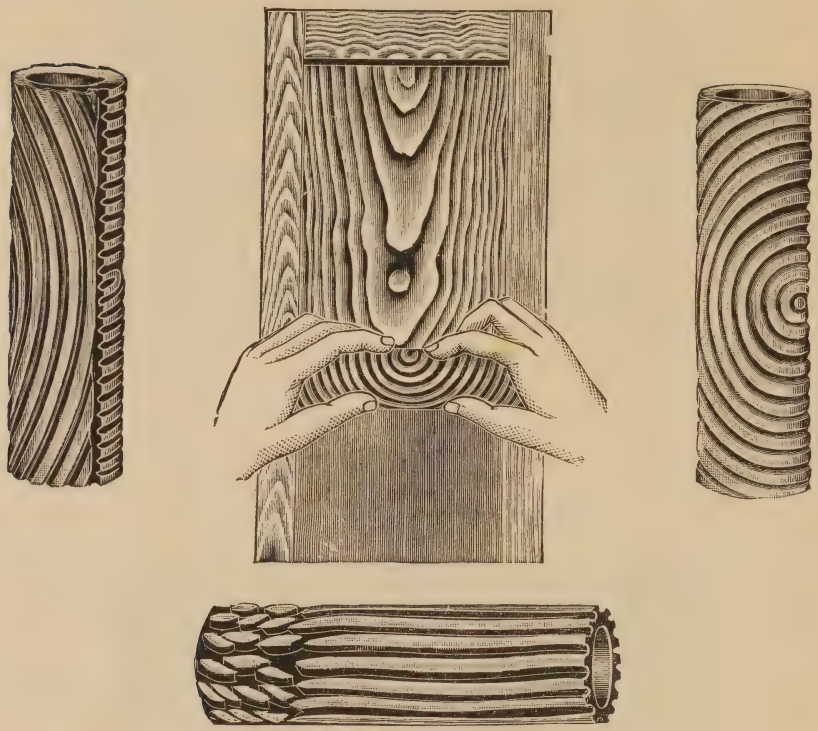
SISK'S PAPER-HANGERS' PATENT SIZING.

A satisfactory sizing for painted, kalsomined or lime-washed walls and ceilings which can be relied on and requires no scraping or washing to prepare the surface, has long been looked for by practical paper-hangers. Sisk's Paper-Hangers' Patent Sizing meets these requirements.

The first trial of this sizing by any practical paper-hanger will convince him of its merits. It works easily and dries quickly, therefore a surface can be prepared more quickly by the use of Sisk's Paper-hangers' Patent Sizing than by any size or method on the market. Add one gallon sizing to three gallons hot water, which will make size enough to prepare 12 rooms at a cost of about 8c per room.

Quart cans.....**$0.80** 1-gallon cans....**$2.50**

GRAINING ROLLS.



This illustration shows the manner in which the Union Warranted Graining Rolls are manipulated. So simple that, with very little practice, a child could use them.

These rolls are made in three styles, 5½ inches in length, and 1½ inches in diameter. The corrugated roll as shown on left of above illustration, is used to produce large effects, such as walnut and mahogany. The heart roll as shown on right of above illustration, is used to produce heart grains as found in different woods. The straight cut roll shown in lower view of above illustration, is used to produce quarter sawed effects.

The slightest motion of the hand will change the growth, thereby insuring a large variety of growths.

They are very easily handled and require but very little practice to make you fully proficient in their use.

They are an indispensable tool for the painter, and will pay for themselves over and over again. They can also be used on natural wood by coating the wood with shellac or filler to hold out the graining color.

Any graining color can be used.

Price per set, 3 Rolls **$3.00**

MAJERT'S IMPROVED TRANSFER GRAINING PAPER.

Works like a charm—A wonderful process. Always reliable and is in itself a complete graining outfit.

This new process meets with unqualified approval wherever once used. It has many advantages over hand graining, and far excels all other devices that have been introduced for this purpose. It does much finer work, and in one-third of the time taken for hand graining. It perfectly transfers the graining from the paper to the object to be grained; then the paper is discarded. We carry in stock the following kinds:
